

# **Personal & Professional Project (PPP)**

This presentation outlines my academic background, my career objectives, and my motivation to work in the fields of computer networks and artificial intelligence.

## **Academic Background**

I am currently a computer engineering student at ENSEEIHT. My studies focus on computer networks, telecommunications, and system-level programming.

# **Career Objectives**

My goal is to become a network engineer with strong expertise in artificial intelligence, in order to design intelligent, efficient, and scalable networked systems.

## **International Mobility**

An international experience represents a key step in my career plan. It would allow me to broaden my technical knowledge, improve my adaptability, and work in a multicultural environment.
